

PC 2 : 24.9 %

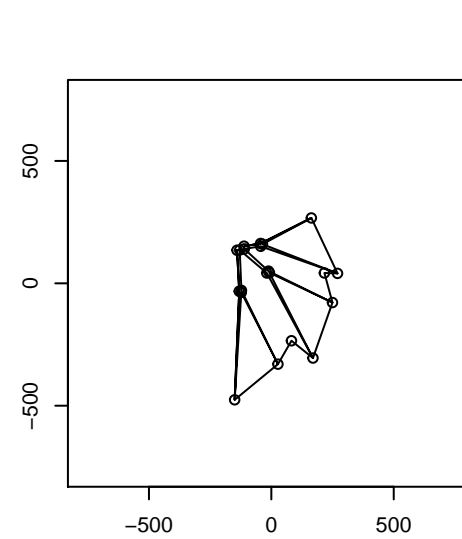

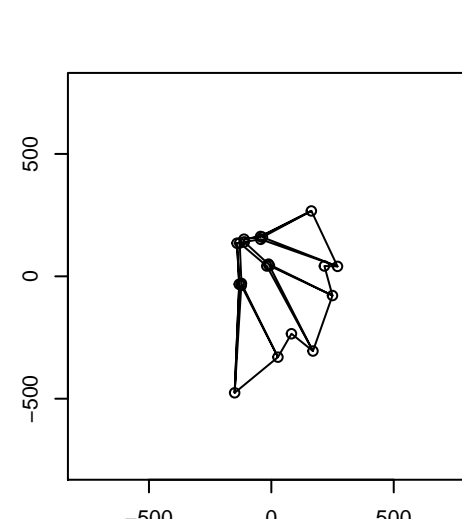

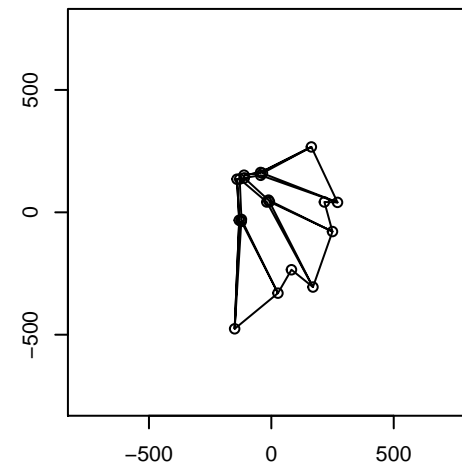

PC 3 : 10.7 %

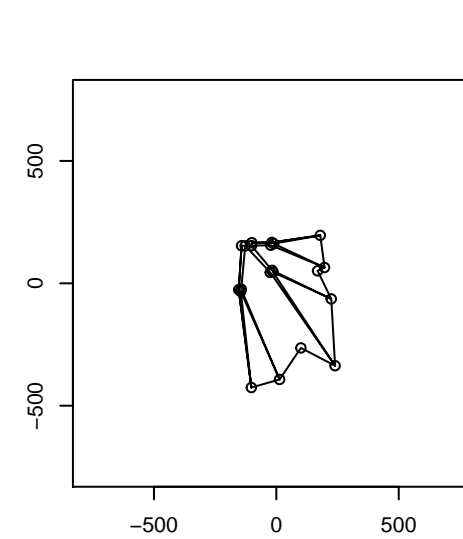

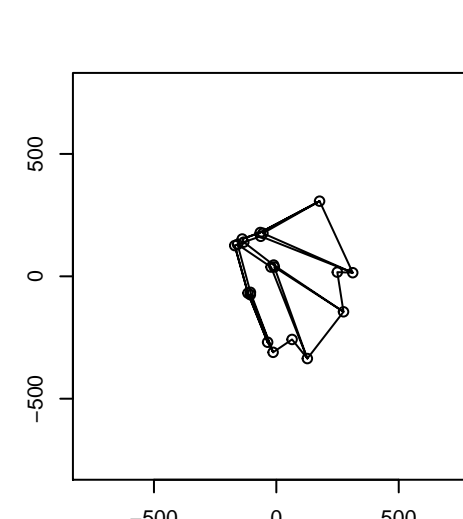

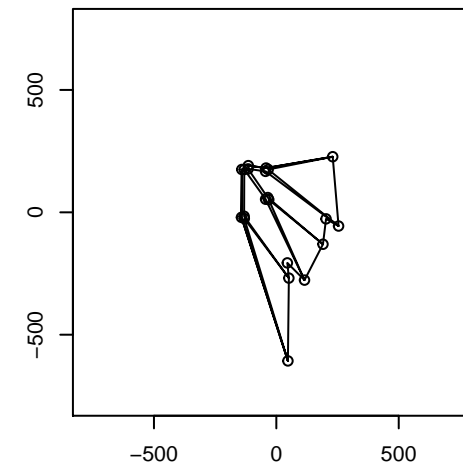

This PCA plot shows the separation of groups along PC 3 (10.7% variance). The x-axis represents PC 1 (25.2% variance) and the y-axis represents PC 3 (10.7% variance). The groups are represented by different symbols: open circles, filled circles, open squares, and filled squares. The groups are well-separated, with the filled circles and filled squares clustered together on the left, and the open circles and open squares clustered together on the right.
